HELLEKAR'S DEFENSIVE DRIVING MISSION

THE OBJECTIVE

Basically all drivers drive *defensively* to a degree based on their common sense, instinct, experience and habits formed from what they have read or are taught by others.

The average driving sense is found lacking in several areas which needs improvement to cope up with the present traffic conditions.

This course will impart driving skills since it is designed to sharpen the areas required, based on research data on safety programmes. This will help prevent accidents, lessen driving stress, avoid tragic loss of human life, and undue financial losses.

This course will inculcate a sense of courtesy, consideration towards other users of the road. This aspect will be stressed on to achieve the desired results. Such an attitude will bring-in, a pleasant driving habit for one and all, and thereby avoid emotional stress followed by presence of mind and place everyone in good spirits & consequently make one a safer driver.

THE METHODOLOGY

This specially developed complete DEFENSIVE DRIVING COURSE is covered by CLASS ROOM LECTURE SESSION, supported with VIDEO FILMS and COMPUTERISED AUDIOVISUALS.

Medium : Hindi, English, Marathi

CONTENTS

Human errors in the driving habit are largely responsible in the majority of accidents. These errors are highlighted and remedial measures to get over such situations are explained.

General situation of accidents and how to anticipate & adjust, in such adverse conditions.

Research has documented several situations of ways and means a collision can occur. The remedial solutions for such occurrences.

GENERAL OUTLINE

- Drive to stay alive - you can be a safer driver than today. Is there such a thing as a perfect driving-preventable and non-preventable accidents - whom to Blame? Importance of road signs & road markings.
- How to adjust with adverse conditions such as - light - weather - traffic - road - vehicle and driver.
